APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: From an inspection this spring was found to flow but a small fraction of a second foot of water, and conditions do not indicate that, at most, more than one second foot can ever be developed from the source. This permit is therefore granted for that amount.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed One (1) cubic feet per second.

Actual construction work shall begin on or before June 16th, 1913.

Proof of commencement of work shall be filed before July 16th, 1913.

Work must be prosecuted with reasonable diligence and be completed on or before Dec. 16th, 1913.

Application of water to beneficial use shall be made on or before June 16th, 1915.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before July 16th, 1915.

WITNESS MY HAND AND SEAL this 16th day of April, 1913.

Proof of labor filed JUL 16 1913

Cancelled JUN 12 1914 because of failure of applicant to comply with provisions of permit.

W.M. Kearney
State Engineer.

W. M. KEARNEY
